Press Release

RescueDAYS in Mosbach, as well as trade fair appearances at FLORIAN in Dresden and maintenance in Munich

WEBER RESCUE SYSTEMS to Participate in Three Major Events This October

Losenstein, 07.09.2026. ***October 2026 will be all about training, innovation and personal exchange for WEBER RESCUE SYSTEMS. The international rescueDAYS will take place in Mosbach from 9 to 11 October. Featuring three training formats and numerous realistic scenarios, the event offers emergency responders the opportunity to intensively practise the latest rescue techniques. In addition, WEBER RESCUE SYSTEMS will be exhibiting at FLORIAN in Dresden from 8 to 10 October and at maintenance in Munich on 14 and 15 October.***

rescueDAYS 2026 in Mosbach

The international rescueDAYS are the world's largest training event for technical rescue and have been held at changing locations for more than 20 years. The focus is on providing emergency responders with practical preparation for current and future challenges in technical rescue operations.

Modern vehicle technologies, alternative drive systems and the increasing diversity of vehicles on the road are changing the demands placed on fire and rescue services. At rescueDAYS, participants can train for a variety of accident scenarios under realistic conditions, learn new rescue techniques and deepen their knowledge of working with modern technology. At the same time, the event provides ample opportunity for professional and personal exchange with emergency responders from different countries.

In 2026, three training formats will be available in Mosbach. rescueDAYS.ORIGINAL, taking place on 9 and 10 October, will focus on realistic technical rescue scenarios and the latest rescue techniques. rescueDAYS.TEAM, on 10 and 11 October, will concentrate on Crew Resource Management, teamwork and incident command. The programme will be complemented by the Door Opening Seminar on 10 October, which will provide practical training in forcible and low-damage techniques for opening doors and windows.

FLORIAN 2026 in Dresden

From 8 to 10 October 2026, WEBER RESCUE SYSTEMS will be exhibiting at FLORIAN in Dresden. At the trade fair for fire brigades, civil protection and disaster response, the company will present its latest product developments and innovations. Highlights will include SMART FORCE OS, the digital operating system for hydraulic rescue tools, as well as the BÜFFEL B 10 ALU and other new products.

maintenance 2026 in Munich

On 14 and 15 October 2026, WEBER RESCUE SYSTEMS will present solutions for industrial applications at maintenance in Munich. The focus will be on products for cable cutting as well as hydraulic assembly tools designed for a wide range of requirements in industry, assembly and maintenance.

With these three events in October, WEBER RESCUE SYSTEMS is creating numerous opportunities for hands-on training, the presentation of its latest solutions and personal exchange with users.

About WEBER RESCUE SYSTEMS

WEBER RESCUE SYSTEMS is an internationally leading, innovative manufacturer of high-quality hydraulic and pneumatic rescue systems for technical assistance. These systems are used in various sectors, including fire services, technical relief organisations, the military and the police. The equipment also finds versatile applications in industries, such as decommissioning and recycling.
With a broad range of additional equipment for various applications, WEBER RESCUE SYSTEMS offers everything needed for stabilisation, securing and initial access. As a pioneer in the digitalisation of rescue organisations, WEBER RESCUE SYSTEMS integrates digital features into rescue tools and develops apps and software for alerting, management and training.
Their extensive training programs equip rescue personnel with the skills needed to handle and maintain rescue systems optimally. In addition to technical assistance training and equipment maintenance courses, WEBER RESCUE SYSTEMS organises rescueDAYS, the world's largest training event for technical rescue.
